## About me

Marital status: **Single**

Date of birth: **15. 9. 1987**

Location: **Prague / Rakovník, Czech Republic, European Union**

Driving license: **B**

My goal is to bring people high quality and usable applications with accent on safety, high performance and effectivity for **web, Android & iOS** platforms preferring **JavaScript, TypeScript, Java, PHP and Go** + (No)SQL databases. I'm focused on frameworks **Angular** and **React** on web frontend and high-scalable applications on backend in **Node.js** and Go mostly based on **REST & GraphQL** APIs, HTTP/2 or websocket interface deployed in **cloud** platforms using usually **Docker** and **Kubernetes**.

In recent years, I have mainly been involved in the design of **application architecture from scratch**, including complex infrastructure with focus on **Microsoft Azure**, AWS, Google Cloud and Linux servers like Debian & RHEL.

Teamwork is needed to build a successful app, so I recruit motivated and enthusiastic people where one supports the other. I also achieve this goals by establishing high effective development processes and project methodologies in agile environment and by define technology strategy implementing **CI/CD** best practices.
